Web Design & Development
Diploma

Total Technical Credits...............57

Program Information

The Anoka Technical College Web Design and Development diploma is a 57-credit program designed to prepare graduates to successfully compete for high-paying, rewarding careers in the high demand IT fields both today and in the future. This unique program allows technical specialization in Web Design and Development while the common core courses and required electives from other options build a broad IT foundation needed to understand the terminology and methodologies of other IT specialties in the workplace.

The Anoka Technical College Web Design and Development graduate will be a specialist in one of the areas of emphasis in Information Technology and will also have a broad IT foundation needed to understand the terminology and methodologies of other IT specialties in the workplace. Web Developers are responsible for front and back-end web development. On the front-end, the web developer uses a combination of HTML, CSS, and scripting languages to build everything a user sees and interacts with on a website. On the back-end, they develop the application and interact with the server and database that make up the foundational structure of an interactive website using various web technologies.

The program requirements were determined through consultation with employers, those working in the industry, technical training professionals, and those currently seeking training and retraining for IT careers. Graduates will be encouraged to take advantage of access to corporate recruitment and IT recruiting firms. Internships and work-study positions will also be available. The IT graduate will be highly employable.

Program Learning Outcomes

1. Apply critical thinking skills in the identification, analysis and resolution of information technology problems.
2. Exhibit interpersonal skills and a professional attitude while working in an information technology environment.
3. Clearly express ideas and information in written and spoken form.
4. Analyze, design and document system specifications to meet client needs.
5. Apply project management techniques to solve business problems.
6. Collaborate with a team to design and develop customer software-based solutions and integrate them into the user environment.

Industry and Career Outlook

Anoka Technical College Information Technology graduates will be specialists in their area of emphasis and will also have a broad base of foundational knowledge from the common core courses that span the three emphasis areas. Professional standards, proper methodology and project management will be emphasized throughout the courses.

Wage information is available from the Minnesota Department of Employment and Economic Development.

Program Start Dates

Fall Semester..August, October
Spring Semester .... January, March

Course Prerequisites

Some courses in this program may require a prerequisite. Please see course descriptions for more details.

Program Sequence Fall Start

Fall Semester		....	**15**
☐ BDAT 1005	Data Analysis Fundamentals	....	2
☐ ITEC 1003	Networking Fundamentals	....	2
☐ ITEC 1011	Programming Logic & Design	....	4
☐ ITEC 1016	Web Programming Technologies	....	4
☐ TLIT 1005	Technology Fundamentals	....	3
Spring Semester		....	**16**
☐ ITEC 2120	Database Design and SQL	....	4
☐ ITEC 2311	User Experience & Interface Design	....	4
☐ ITEC 2600	Application Development	....	4
☐ ITEC 2601	Database Application Development	....	4
Fall Semester		....	**16**
☐ ITEC 2215	Linux/Web Server Administration	....	4
☐ ITEC 2340	Scripting Languages	....	4
☐ ITEC 2317	Web Interactivity Tools	....	4
☐ ITEC 2520	Mobile Application Developmen	....	4
Spring Semester		....	**10**
☐ ITEC 1025	Project Management	....	4
☐ ITEC 1035	Documentation Standards	....	2
☐ ITEC 2901	Integrated Capstone Project	....	4

Program Sequence Spring Start

Spring Semester		....	**15**
☐ BDAT 1005	Data Analysis Fundamentals	....	2
