Measure Definitions**

Measure	Description	Numerator Definition	Denominator Definition
Net Tuition and Fees	For reporting at the system level (colleges, universities, system): the grant/aid numbers and tuition and fees numbers are totaled across the institution types (colleges, universities, system); then, this total grant/aid is subtracted from the total tuition paid by the first-time, full-time undergraduate population. This net figure is weighted by full-time undergraduate students at each institution in the computation of the institution-type reported total. The denominator is the state median family income for the calendar year corresponding to the fall term.	Tuition and fees net of financial aid.	Statewide median income.
Certificates and Degrees Awarded	The number of certificates, diplomas and degrees awarded each fiscal year. This is a count of each award conferred, not a distinct count of graduates, as some graduates may have earned multiple awards. Awards with the same award level conferred to a student on the same day are unduplicated to avoid over counting a single award associated with multiple majors.	N/A	N/A
