Program Information

The Anoka Technical College Associate of Applied Science (AAS) degree in Health Information Technology is a 60-credit program that prepares students for a career in health care and settings where health information is utilized. A student graduating with a degree in Health Information Technology is well prepared to assume an entry-level position in this professional field. Specifically, program outcomes are designed to assure that graduates of the program will be prepared to demonstrate: essential professional and technical knowledge, skills and competencies fundamental to the health information management profession; effective written and oral communication skills; and problem solving, teamwork and critical thinking skills.

Program Learning Outcomes

By completing this program, students will achieve the following learning outcomes.

1. Successful completion of the degree will allow the student to sit for the Registered Health Information Technician (RHIT) exam.
2. Successful completion of the degree will allow the student to work in a hospital/healthcare setting beginning as an entry-level supervisor.
3. Successful completion of the degree will allow the student to sit for a number of coding credentials, such as the CCA, CCS, CCS-P, CPC, CPC-H.
4. Successful completion of the degree will allow the student to work in a hospital, clinic, public health facility, insurance company, or related facility.
5. Successful completion of the degree will allow the student to deal with confidential patient information and work in the area of release of information.
6. Successful completion of the degree will allow the student to transfer to a four-year degree program in Health Information Management.
7. Successful completion of the degree will allow the student to further their career path by continuing their education in Tumor Registry.

Accreditation

The Health Information Technology degree program is accredited by the Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM). Only graduates of a program accredited by CAHIIM are eligible to sit for the Registered Health Information Technician (RHIT) exam.

Course Prerequisites

Some courses may require appropriate test score or completion of basic math, basic English and/or reading courses with a "C" or better.

Background Study

Minnesota Law requires that any person who provides services that involve direct contact with patients and residents at a health care facility licensed by the Minnesota Department of Health have a background study conducted by the state. An individual who is disqualified from having direct contact with patients as a result of the background study, and whose disqualification is not set aside by the Commissioner of Health, will not be permitted to participate in a clinical placement in a Minnesota licensed health care facility. The College will withdraw any student who is disqualified by the Minnesota Department of Health. The student is responsible for requesting the Commissioner to reconsider the disqualification.

Graduation Requirements

All Anoka Technical College students seeking an Associate in Applied Science (AAS) in Health Information Technology must earn a grade of “C” or higher in every course in the program.

Transfer Opportunities

To see how credits from this program may transfer into other Anoka Technical College programs or into a program at another college, visit:

Wages/Outlook/Advancement

The U.S. Department of Labor Statistics, in its Occupational Outlook Handbook, projects that employment for health information technicians is expected to grow much faster then the average. Credentialed health information technicians (RHITs) can look

Industry Information

The Health Information Management (HIM) professional is an important connection between doctors, patients, insurance providers, and other healthcare professionals within the field. By maintaining, collecting, and analyzing health information, the HIM professional makes an important behind the scenes contribution to the delivery of quality care. Besides working with cutting-edge technology, HIM professionals are experts in the field of patient health information and health records.

Health information technicians ensure the quality of health information by:

- Verifying health records completeness and accuracy and proper entry into computer systems.
- Utilizing computer applications to assemble and analyze patient data.
- Coding diagnoses and procedures for reimbursement and research.
- Compiling and maintaining registry data.
- Maintaining quality control of health records.
- Assuring patient privacy and data security.
forward to many expanding career opportunities due to increasing patient privacy/data security legislation and computerization of health information.

### Technical Education: 45 Credits

- HITM 1221 Intro to Health Information Management ..........3
- HITM 1240 CPT Coding ..................................................3
- HITM 1244 Law and Ethics .................................................2
- HITM 1260 Professional Practice for Coding Specialist ..........3
- HITM 1325 Quality & Performance Improvement in Healthcare ....3
- HITM 1110 Medical Terminology in Health Information ..........3
- HITM 1120 HIT Practicum I ..............................................3
- HITM 1130 ICD-10-CM Coding ..........................................3
- HITM 1200 Billing and Reimbursement .................................3
- HITM 1210 Supervision of Health Information .....................3
- HITM 1230 ICD-10-PCS Coding ..........................................3
- HITM 2240 Computerized Health Information ........................3
- HITM 2245 Health Care Statistic and Data Registries .............3
- HITM 2260 HIT Professional Practice Experience II ..............2
- HLTH 1000 Disease Conditions ...........................................2
- HLTH 1005 Anatomy & Physiology .....................................4

### General Education/MnTC Requirements: 15 Credits

Fifteen (15) general education credits of Minnesota Transfer Curriculum (MnTC) are required. MnTC credits must be from three different goal areas. Student is required to take:

- BIOL 1106 Principles of Biology ........................................4
- INTS 1000 Critical Thinking Applications for College ...........3
- English transferable course ..............................................3 or 4

Choose ONE transferable course from the two categories below:

- SPEECH Choose one transferable course ..............................3 or 4
  OR
- PSYCHOLOGY ...............................................................3 or 4
