

Medical Administrative Specialist Program Description(s)

Industry Description

Medical administrative specialists perform a variety of tasks necessary to run a medical office or within an insurance or related office. In a large medical office, the medical administrative specialist will focus on more of the non-patient, office duties working more directly with the administrative team of the facility (with other medical office personnel such as receptionists/schedulers working at the receptionist desk and scheduling appointments).

In a small office, the medical administrative specialist's job many include a greater variety of duties, including transcribing reports, composing and processing correspondence, accounting for payments and posting charges, completing insurance forms, coordinating patient care, scheduling patient appointments, recording and delivering messages, maintaining financial records, maintaining patient files, making calls for physicians, arranging hospital admissions, and arranging physicians' meetings/conferences.

The medical office is a rapidly changing office setting as more and more functions are being automated. Doctors and nurses are being trained to input more of their own data and voice transcription is increasingly used in hospitals and clinics. This is leaving the medical administrative specialist with more time to do more administrative work; and the need for good computer skills; excellent communication and organizational skills, and interpersonal skills continues to grow.

Wages /Outlook/Advancement

Wage information is available from the Minnesota Department of Education and the [Minnesota Department of Employment and Economic Development](#)

Medical secretaries generally advance by being promoted to other positions with more responsibility. Some become office managers. Medical secretary experience can also lead to jobs as sales representatives for drug companies or for manufacturers of computer software.

This information is available in alternative formats by calling (763) 576-4700. TTY users can call Minnesota Relay at (800) 627-3529. Anoka Technical College • (763) 576-4700 • 1355 West Highway 10, Anoka, MN 55303 • A member of the Minnesota State Colleges and Universities System • Anoka Technical College is an equal opportunity, affirmative action employer and educator.

Careers

In the fast-growing healthcare field, the medical administrative assistant functions in physicians' offices, health clinics, outpatient facilities, medical laboratories, hospitals, health insurance companies, medical supplies and equipment businesses, and pharmaceutical companies.

Job duties/skills may include the following:

- transcribing medical documents/reports
- accounting for payments and posting charges
- coordinating patient care
- recording and relaying messages
- processing insurance claims
- maintaining patient files
- scheduling patient appointment
- arranging hospital admissions
- maintaining various financial records
- scheduling surgeries
- making calls for physicians and other healthcare professionals
- arranging physicians' meetings and conferences
- using automated record system to access enter, and edit patient information
- composing and processing correspondence

Program Description

The Medical Administrative Specialist program consists of administrative courses, designed to develop basic office and computer skills, and additional credits of specialized medical office courses.

In addition to keyboarding and basic computer skills, the student will receive training in communications, word processing and other advanced software, anatomy and physiology, medical terminology, medical office procedures, and (as an elective) medical transcription.

In the fast-growing healthcare field, the medical administrative assistant functions in physicians' offices, health clinics, outpatient facilities, medical laboratories, hospitals, health insurance companies, medical supplies and equipment businesses, and pharmaceutical companies. Therefore, the medical administrative specialist must be extensively trained both in the administrative support area and in medical office area.

IMPORTANT ACCUPLACER Test Requirement: ACCUPLACER testing in math, reading and writing. Any needed developmental courses must be completed before receiving a diploma or an A.A.S. award.
