* Campus is identified using the campus associated with the course(s) of enrollment, **not** home campus (originating the application) unless otherwise noted. Since there are a number of students enrolled in courses at both campuses, there is duplication of students across the campuses (i.e., some students are counted once in the Cambridge headcount and once in the Coon Rapids headcount). Consequently, if the two campus headcounts are added together, the sum is greater than the total college headcount (which removes the duplication across campuses). If you sum the two campus headcounts and subtract the number of students enrolled in courses at both campuses, the result is the total college headcount.

The percentages shown reflect the percentage of all students, unless otherwise noted.

Definitions/Glossary of terms:

Concurrent enrollment = undergraduate level credit courses offered at area high schools (through ARCC) under the provisions of the Post Secondary Enrollment Options (PSEO) Program.

Continuing student = a student who previously attended the institution. However, PSEO (and other high school students) who re-enroll at the institution as regular undergraduates after graduating from high school are considered “new” students.

Credits = the total number of credits students have registered for at ARCC (or at the individual campus).

First generation status = this definition is the MN Legislative definition of first generation status, and can be found in Laws of Minnesota 2003, Chapter 13, Article 1, Section 3, Subdivision 3. Per this definition, a student is first generation if neither parent/guardian has received any postsecondary education. This differs from the Federal (TRiO) definition of first generation, which considers a student to be first generation if neither parent has a bachelor’s degree.

Full-time student = a student whose total number of registered credits at the college is 12 or greater. For each campus, the data reflects the number and percentage of students who are registered for 12 or more credits total (not necessarily all at that particular campus).

FTE = full-time equivalent enrollment, which is based on 15 credits per semester (total eligible credits /15).

FTE credits = the adjusted total number of credits students have registered for at ARCC (or at the individual campus) that count toward the FTE calculation (i.e., adjusted to account for shared courses where ARCC may only count half of the total FTE generated, etc.)

Headcount = an unduplicated headcount of students registered for at least one credit during this term (i.e., students are counted only once, even if they are enrolled in multiple courses).

New student = a student who has not previously attended the institution. For fall semester, “new” students include anyone who is enrolled for credit during fall term but whose first term of enrollment at the institution was the summer term immediately preceding the fall term.

Non-concurrent FTE= full-time equivalent enrollment based on all registered credits excluding Concurrent enrollment credits (INSTR_UNIT_TYPE “E” or “F”).

Non-concurrent headcount= an unduplicated headcount of students registered for at least one credit excluding any Concurrent enrollment courses (INSTR_UNIT_TYPE “E” or “F”).

Online courses = online courses are identified as those with media codes 03 (Internet), 12 (Completely Online-Asynchronous), or 13 (Completely Online-Synchronous).

Online and hybrid courses = online courses are identified as those with media codes 03 (Internet), 12 (Completely Online-Asynchronous), or 13 (Completely Online-Synchronous); hybrid courses are identified as those with media code 09 (Blended/Hybrid).

Part-time student = a student whose total number of registered credits at the college is 11 or less. For each campus, the data reflects the number and percentage of students who are registered for 11 or fewer credits total (not necessarily all at that particular campus).

Primary major = a student’s stated major; identified as majors with a major rank “01”.

PSEO = high school students enrolled in undergraduate level credit courses at this institution under the provisions of the Post Secondary Enrollment Options (PSEO) Program.

Given that data at ARCC changes daily and that our data integrity and reporting procedures are continually being enhanced, future reports may reflect a different degree of accuracy than what is currently available.
