Job Description:

Position Summary:

CEDA is currently seeking responsible individuals wanting career opportunities. We are looking for entry level laborers to work as Field Operator Trainees. There are immediate promotion opportunities for those who excel in their proven abilities and self motivation to complete the required training. This position involves working along side our high pressure water equipment and vacuum truck operators, in and around heavy equipment machinery, in large industrial facilities such as refineries and paper and power industries. Your duties will be diversified and vary based on the project and needs of the operators. General responsibilities will include aiding in the operation and maintenance of our pumping units and specialty tools.

Key Duties and Responsibilities:

- Provide quality services to our clients
- Assist with the operation and maintenance our pumping units and various specialty tools
- Complete minor maintenance and checks on company vehicles
- Ability to travel and flexibility in scheduling is required

CEDA offers competitive wages, above average pension and benefit packages that include an RRSP program. We provide training and opportunities for advancement. In addition, the CEDA group of companies are committed to maintaining a positive and safe work environment.

CEDA is always recruiting qualified individuals who are career driven. If you meet or exceed our qualification requirements, please fill out an on-line application as directed on the website. Incomplete applications may not be considered for employment. If you are ready to "Turn Around" your career, we look forward to hearing from you.
