

Good Afternoon,

My name is Crystal Meadows and I am looking to employ an **OT student** who would be willing to take on a year round part-time position as a personal care attendant with my 9 year-old nephew. We currently live in Andover but are looking to move in the surrounding areas of Ramsey, Blaine, or Coon Rapids. He has a medical diagnosis of PTSD, ADHD, Anxiety, Mood Disorder (Bipolar), and Dyslexia. Often he has manic episodes and can be physically and/or verbally aggressive. He is independent but needs verbally cues or reminders to complete tasks. He also has some difficulty with math, reading and spelling. Despite all the medical conditions, he really is great kid.

Hes full of energy, creative, ambitious, loves anything outdoors, sports, and animals.

The position offers 21 hours per week and can those hours are extremely flexible. The employment would be through a home-care agency, AbbeyCare Inc.

and I believe it pays roughly \$11.25/hour. Because school is soon approaching we would be looking for help either before his school day,after school, or on the weekend. I am not requiring any weekends or holidays but they can be worked if one wishes to do so. His school hours are from 9:15am-3:45pm.

Ideally, we would be looking for a male candidate but will strongly consider a women. Because my nephew is always on the go, He would need someone that would be able to keep up with him physically.

If you know of anyone who would be interested please feel free to contact me, Crystal, at(763)516-6055 or email: [mead0044@metnet.edu](mailto:mead0044@metnet.edu) and I can provide more information and answer any questions. Thank you so much for your time. Have a great day.

Kind regards,  
Crystal Meadows
