

NORAC Inc. is a subsidiary of NORAC Systems International, a Canadian-based manufacturer. NORAC, a growing company, specializes in control systems for the agricultural industry.

We are currently seeking a **Product Support Intern**.

Role:

The Product Support Intern will work within a team of professionals providing phone support and product repair on electrical, mechanical and hydraulic systems for NORAC agricultural products.

Principal Duties and Responsibilities:

- Provide technical support to manufacturers, dealers and customers.
- Test, repair and calibrate NORAC equipment.
- Evaluate NORAC equipment being returned for Warranty.
- May be asked to assist in other duties on a case by case basis.

Required Knowledge, Skill & Abilities:

- Ability to understand hydraulic and electrical schematics is an asset.
- Must be proficient with Microsoft Office applications.
- Knowledge of electro hydraulics and electronics is preferred.
- Strong communication skills.
- Must have a valid driver's license with a clean driving record.

Education and Experience:

- Currently attending or graduating from a post-secondary technical program.
- Agricultural background and experience with sprayers and other agricultural equipment is preferred.

Additional Information:

Some travel may be required within the five state region including MN, ND, SD, WI and IA. Application deadline is January 23rd, 2012. Please apply early as this position may be filled before the application deadline. This is a 4 to 6 month term position that will begin between January 2, 2012 and March 31, 2012 and will end between June 30, 2012 and August 31, 2012.
