**Site Overview:**

Bethesda Hospital - Bethesda Hospital in St. Paul is a 140-bed Long Term Acute Care Hospital (LTACH) that provides comprehensive acute medical care to patients that have very high medical complexity. Bethesda helps reinvent lives affected by severe illness or injury in the areas of complex medical and respiratory care. They also provide the region's leading comprehensive medical and behavioral care for neurovascular/brain injury and dementia patients. With an average stay of 30 days, patients and staff have time to develop relationships that promote the healing process. Bethesda offers a holistic healing environment where patients receive cutting-edge medical treatment, focused on a interdependent teaming approach that heals not only the body, but the mind and spirit as well. Their interdisciplinary team is led by highly trained physicians including hospitalists and sub-specialty physicians who provide state of the art medical treatments.
