

Rewarding Career as a **Vision Therapist**

Work with doctors, patients of all ages and their care givers to treat vision problems that impact development, school and work performance. Position is part-time with the eventual possibility of full-time. Afternoon hours are a must. Skills must include: high level of responsibility, detail-oriented, excellent communication skills (verbal and written), ability to be self-motivated and work independently, computer literacy and the ability to learn independently with the proper tools.

No specific vision experience required as we will train the right person. Backgrounds in education, child development and occupational therapy are useful. Please email resume for consideration:

drhadler@thechildreneyedoctor.com. Office location is in Otsego.

Salary based on experience.
